Sales Trend Analysis Report

This report summarizes monthly revenue and order volume using SQLite queries with GROUP BY, SUM, and COUNT functions. The analysis helps identify sales patterns and peak months.

Year	Month	Total Revenue	Total Orders
2025	01	3500.0	2
2025	02	4300.0	2
2025	03	6000.0	3
2025	04	9500.0	2

Observation: Revenue steadily increased from January to April, with April showing the highest revenue. This suggests strong sales growth over time.
